## Selection of Core Business on GST Portal

One-time data collection feature

What is core-business activity? How to identify it?

Core business activity means which kind of business you primarily deal in. For example: If you a toy manufacturer, you may select Manufacturer in Core Business Selection.

To know more about each business category, please click the information i tap on the page after which the following page will appear:

Meaning of Manufacturer, Trader and Service Provider

<b>MANUFACTURER</b>	A manufacturer is a registered person produces new products from raw materials and components using tools, equipment's and machines and then sells them to the consumers, wholesalers, distributors, retailers or to the other manufacturers. A manufacturer may sell some more brought out items or may provide some ancillary services with his manufactured goods, but he would continue to be classified as manufacturer because it is the Primary Business Activity.
<b>TRADER</b>	A trader is a registered person who engages in the buying and selling of goods. Traders have been further classified as -Wholesaler or Distributor -Retailer -Retailer includes a registered person selling goods through-commerce operators.
<b>SERVICE PROVIDER AND OTHERS</b>	A service provider is a registered person who provides service to a recipient of service and is neither a manufacturer nor a trader. Banking service, IT service, works-contract service, agents, intermediaries, GTAs etc.
